

Seven Thousand Co. Republicans Attend Picnic

Hear Brooks, Green at Lake
Villa; Two Meetings
Tonight

Seven thousand persons attended the Lake county Republican picnic held at Lake Villa Sunday with Wayland Brooks, candidate for U. S. senator, and Dwight H. Green, candidate for governor, as speakers.

Announcement was made of plans for two events being held today—a gathering of the Republican women's organization this afternoon at 2:30 o'clock in the Hotel Karcher, Waukegan, and an assemblage of 95 precinct committeemen this evening, also at the Karcher.

Mrs. Robert Ticken of Libertyville is acting as chairman for the women's meeting today.

Antioch Representatives
James Stearns and C. K. Anderson of Antioch, and Arthur Gardiner from western Antioch Township are representing the three precincts of this township at the evening gathering, which was called by Wesley Carey, federation director.

William M. Marks of Lake Villa is presiding as chairman of the Lake County Republican Central Committee.

Brooks called attention to the New Dealers for their failure to provide adequate defense even though Roosevelt had 60 million dollars to spend. Brooks charged that Roosevelt was either so negligent or not equipped to handle the presidency for a third term by his failure to provide defense, especially when he knew that Hitler proclaimed to the world that Germany would rear in 1935.

Green attacked the Kelly-Nash-Nudelman machine for increasing the tax burden on Illinois citizens to support 50,000 political payrollers.

Lay Cornerstone for St. Bede's at Fox Lake

The Rev. Francis M. Flaherty, pastor of St. Peter's Catholic church here, assisted in the laying of the cornerstone for the new \$85,000 church and rectory of St. Bede's parish at Fox Lake Sunday.

A number of persons from Antioch and nearby locations attended the ceremony.

The Very Rev. Msgr. Francis M. O'Brien, of St. Angela's church, Chicago, officiated.

The new church will be located directly across from the white frame building on Highway 59 which was erected in 1872 and is one of the oldest church structures in the diocese still in use.

St. Bede's was started as a mission from a McHenry county parish and later came under the support of St. Peter's church.

It was organized as a separate parish 12 years ago, and the Rev. John F. Coleman has served continuously as pastor since then.

Rock River Centennial Celebration Announced

Of interest to members of the Antioch Methodist church, some of whom are planning to attend the event, is the announcement of the Centennial celebration of the Rock River Annual conference at Mount Morris, Ill., on Friday, Oct. 4.

The conference was organized 100 years ago at Mount Morris.

The centennial observance will open at 9 a. m. with business sessions. At 4 p. m. dedication of a marker at the site of the organization of the conference will be held.

Don't Forget to Turn Your Clock Back Sunday

Antioch and surrounding territory, along with the rest of Lake county, will return to standard time Sunday morning at 2 o'clock.

"Daylight saving time is adopted by the village during the summer time in order to avoid inconveniencing the many visitors and cottage owners who work in Chicago during the week."

Call for Bids for Work on Lake Channels

Bids will be taken Monday, Sept. 30, for additional dredging and channel clearance in the Chain O' Lakes state park area here, it has been announced at Springfield by Carter Jenkins, chief waterways engineer for Illinois.

The project calls for removing 110,000 cubic yards of materials in channels connecting Lake Marie and Channel lake, Lake Catherine with Channel lake, and Petite lake with Bluff lake.

Fire Prevention Week Will Be from Oct. 6-12

Fire Chief James Stearns of Antioch has called attention to the fact that the period from October 6 to October 12 has been officially proclaimed as Fire Prevention week in Illinois by Governor Henry Horner.

"Records of the fiscal year ending June 30, 1940 show that 208 persons in Illinois lost their lives in fires, and 566 were injured," the proclamation said. "This compares with 174 deaths and 46 injuries in the preceding twelve months. The financial loss in the State from fires during the year was \$11,767,752, which is less by \$1,604,838 than the loss of the preceding year."

"This increase in deaths and injuries is most regrettable, and sharply lessens the satisfaction which might otherwise be derived from the diminished property loss."

"Fire prevention week is a time for citizens to check the fire hazards in their homes and places of business. Heating plants, flues, and electrical wiring should be examined and made safe. Premises should be cleared of combustible trash. The habit of being careful with matches, smoking materials and gasoline should be developed. A seemingly simple hazard may cause a great loss or take a life."

Nationally Known Speakers Will Give Lecture Series Here

Dorothy Baker of Lima, O.,
to Offer First Talk at
High School Oct. 1

"America's Destiny in World History" is the first of a series of three lectures to be given at the High School Auditorium in Antioch, October 1st, 8th and 15th, at 8:15 P. M.

These lectures which are opening the fall and winter activities of the Baha'i Group of this area, are to be given by three nationally known lecturers, Dorothy Baker of Lima, Ohio, Horace Holley and Virginia Camelson of Wilmette, Illinois.

Frank Meese of Antioch will introduce Dorothy Baker, the speaker of October 1. Mrs. Baker is a descendant of the house of the famous Henry Ward Beecher. She travels extensively over the United States on lecture tours and is also well known to radio audiences.

In her home city of Lima, Ohio, Mrs. Baker has served as president of the Parent Teachers association; vice-president of the Women's Council of Lima and also as a member of the board of directors for the Y. W. C. A. and the Family Welfare society. She has been a Baha'i since 1912 and is now vice-chairman of the National Baha'i Executive board which has its headquarters in Wilmette just across Sheridan Road from the world famous Baha'i House of Worship.

October 8th, Horace Holley, the National Baha'i secretary, will be the speaker—his subject, "Man at War with Himself" and the following week the 15th, Virginia Camelson will speak on "Man Finds Himself."

All these subjects are of vital concern to every individual in these days of chaos and uncertainty. Youth are especially invited. All lectures are free and no collections are taken.

Mr. and Mrs. Guy Corteville and son, of St. Joseph, Mich., and Mr. and Mrs. R. Ott, of Bridgman, Mich., were among the out of town relatives who attended the funeral of William Musch today. Mr. Corteville was employed in the Antioch News plant as press room foreman in 1929. Mr. Ott is also a printer and is employed in a large plant at Bridgman.

Mr. and Mrs. Frank Anderson from Florida are guests this week in the home of the former's brother, Mr. and Mrs. C. K. Anderson.

Country Club "Guest Day" is Attended by 150

Annual Tourney Attracts
Many Men and Women
Golfers

Perfect weather combined with an interesting program to draw a fine crowd to Chain O'Lakes Country club's annual "Guest Day" Saturday. Tournament events, for which the course was in excellent condition, drew 120 golfers.

In the evening, the crowd was increased to 150 for the chicken dinner served in the clubhouse.

Fifty prizes for the various golf events were awarded in the evening by the president, E. M. Runyard.

Ladies' Events
Leading golfers among the ladies included Julia Denning, winning low gross with a score of 90; Amelia Lengua, second low gross, and Mary Matween, third low score.

Clara Gerber and Hazel Overton tied for low net, with Clara Gerber winning when they drew for the prize.

Tie at 72
Ed Mauermann and Harold Storms tied with 72's for the men's low gross. In the play-off, the cup for first place went to Mauermann and Storms received a second prize consisting of a \$5 ticket at the Glass House.

The cup for low net went to F. Stegerwaldt, and H. Hafer was awarded a jacket as winner of second prize.

A number of awards also went to foursomes. Many prizes were donated by business men of the community. Several Chicago establishments and business men also gave prizes.

Heart Attack Fatal to James J. Glenn

Services Are Held at St.
Peter's for Lake Marie
Man

Interment in Mt. Carmel cemetery followed funeral services Wednesday morning at 10 o'clock in St. Peter's church for James J. Glenn of Lake Marie. The Rev. F. M. Flaherty officiated.

Glenn, who was 48, died of a heart attack at his home Saturday night.

He is survived by his wife, Ruth; by three daughters, Jean and Patricia Mack of Antioch and Mrs. Jane Lorenz of Antioch.

His parents, Mr. and Mrs. James W. Glenn of Chicago, also survive.

Mr. Glenn and his family came here from Chicago two years ago.

LIBERTYVILLE BEATS THE ACES, 5 TO 9

The Aces' losing streak continued last Sunday when they were handed the short end of a 5 to 9 score in a game with the Libertyville team. Three errors and inability of the Aces to hit in the pinches aided Libertyville in piling up the somewhat lop-sided score. The Aces hit well, garnering 14 bingles as against 15 for the home team.

Military Show Announced at Fort Sheridan

Will Be Largest Spectacle
of Kind Held There
Says Commander

The "military show" to be held at Fort Sheridan Sept. 27, 28 and 29 will be the largest spectacle of its kind ever presented in this vicinity, according to Brig. Gen. L. R. Fredenall, commander.

Information concerning the show was brought here Tuesday afternoon by Matt W. Werve, second lieutenant with Troop A of the 14th cavalry, who was a visitor at the Antioch-News office.

Lieut. Werve is a son of C. B. Werve, well known Kenosha business man who at one time also conducted a furniture business in Antioch. Matt was stationed at Fort Riley until last June.

For the shows, to be held afternoons and evenings on Friday, Saturday and Sunday, the 4,000 regular army troops stationed at Fort Sheridan will be augmented by selected units from Michigan, Illinois and Wisconsin, with all the new "blitzkrieg" weapons.

To Show Anti-Aircraft
The demonstrations will include actual firing of the heavy anti-aircraft guns at targets towed by airplanes, firing of infantry and field artillery weapons, a silent drill by the infantry, a musical ride by the cavalry, and a mass review of all troops, foot, mounted and motorized.

These demonstrations, General Fredenall has pointed out, will afford an opportunity heretofore not available to the patriotic citizens of this area to see the modern army of today in action.

Tickets are now available at the Antioch News office, as well as in most north shore towns and Chicago. The chief beneficiary will be the Army Relief society, an organization formed by a group of civilian women to look after the dependents of deceased soldiers.

The afternoon performances will be at 2:30 o'clock and the evening performances at 7.

The programs are to be in two parts. The first part will be on the parade grounds and will feature 600 recruits in calisthenics, Troop B of the 14th cavalry in a musical drill, and a contrasting demonstration in which an "old time squad" of eight men with Springfield rifles and a modern one armed with Garand rifles will take part.

Part at Beach
Following an intermission, the second part of the program will be given at the beach; 75 millimeter anti-tank guns will be shown in target practice, and Troop A of the 14th cavalry will engage in war strength troop maneuvers.

The Sixty-first coast artillery will demonstrate three-inch anti-aircraft guns which have an altitude range of 27,000 feet (five miles) and there will be a demonstration of 50 caliber water-cooled machine guns, using tracer bullets.

The 15th Observation squad from Scott field will be at Fort Sheridan for this part of the program.

Tow targets will be employed in the airplane and anti-aircraft demonstrations, and actual bullets will be fired.

Harry Nelson and Wilson King are visiting friends and relatives this week in St. Louis, Mo.

William Musch, III Several Mos., Dies

Was Esteemed Antioch Resident for 22 Years;
Services Today

Friends of William John Musch who held him in high esteem during his 22 years of residence in Antioch were saddened by his death Tuesday morning at his home on Lake street, following a five-months' illness.

Members of Herder Masonic lodge of Chicago and Sequoit lodge of Antioch conducted the funeral services this afternoon at 2:30 o'clock in the Strang Funeral home. Burial was in Hillside cemetery.

He was born June 26, 1877, in Stettin, Germany. His wife, Lillian Clauss Musch, with whom he was united in marriage 36 years ago July 15, in Chicago, survives.

Also surviving are six daughters, Mrs. Reinhold Ott, Bridgman, Mich.; Mrs. Wendell Britton, Mrs. Vern Barnstable, Mrs. Donald Gibbs, Miss Lillian Musch, all of Antioch; and Mrs. Marvin Walker, Lake Villa; and one son, William Musch, Jr., of Antioch.

There are five grandchildren.

For several years previous to the world war he conducted a successful business in Chicago. Upon coming to Antioch 22 years ago he acquired a tract of land just west of Antioch on Tenth avenue, then known as Sylvan Beach road. Here he erected the large residence which he later intended to convert into a summer resort. The estate is now owned by Miss Edna West who conducts a boarding school for children in the spacious building and grounds.

Mr. Musch was in the employ of the Atlas Brewing company until ill health caused him to retire.

Geraldine Metzler to Open Branch Studio

A branch studio of the Geraldine Metzler school of dancing, located at 120 North Genesee street, Waukegan, is to be opened here this fall for the convenience of Miss Metzler's lake region pupils.

A number of Miss Metzler's artist pupils, who assist her in teaching, are now on professional tours. They include Miss Elaine Tonigan and Miss Betty Metzler, who will return in time for the opening of the Antioch branch around Nov. 1.

All types of dancing will be taught, as will also baton twirling in the event there are requests for it. Miss Metzler is also considering forming a dancing class for adults.

Libertyville MariAnne Shop Will Have "Grand Opening" This Saturday

A style show at 2:30 p. m. will be a highlight of the "Grand Opening" of the new MariAnne shop in Libertyville, Saturday.

Assisting in the style show will be Mrs. A. E. Sutor, Miss Barbara Sutor, Miss Florence Mahnich, Mrs. Paul Hicks, all of Libertyville, and Mrs. Arthur Highgate of Fox Lake.

Also taking part will be the two little Misses Havahnick, and the little Misses John Behm and Marilyn Highgate.

The store is under the management of Mrs. Thomas F. Hunt, who has successfully operated MariAnne's here for several years.

G. O. P. Editors Denounce 3rd Term For New Dealers

Eighth District Publishers
Organize to Help
Willkie

The third term issue alone is enough to defeat the New Deal ticket on Nov. 5, Republican newspaper publishers and editors of the Eighth Senatorial district were told Friday night by H. L. Williamson, of Springfield, secretary of the Illinois Republican Editorial association.

Williamson, former secretary of the Illinois Press association, pointed out that in the 1936 election there were 31,132 voters in the Eighth district who did not go to the polls—20,712 in Lake county, 6,993 in McHenry county and 3,427 in Boone. The voting strength of the three-county district is 108,713, divided as follows—Lake, 71,931; McHenry, 25,725; Boone 11,057.

The editors attending the meeting pledged themselves to attempt to get all voters to the polls on Nov. 5. A heavy Republican vote in the northern counties will more than offset the Democratic vote in the southern counties and cause the defeat of the Kelly-Nash machine in Cook county, Williamson said.

Elect Officers.
Elected to head the Eighth District publishers as chairman is Charles F. Renich, veteran editor of the Woodstock Daily Sentinel. Other officers elected are:

Vice chairman—John Udell, Highland Park Press; Ralph Boyle, Crystal Lake Herald.

Secretary—E. W. Dean, Marengo Republican-News; Mr. Schroeder, Libertyville News.

Executive committee member—Frank T. Moran, Belvidere, Republican.

District representative—Homer Gaston, Antioch News; A. L. Johnson, Richmond Gazette; J. Russell Heitman, Lake Forest.

Chief Announces Fire Prevention Week Program

Visits of Inspection, Cleanup Campaign Planned,
Says Stearns

"Help make Antioch's observance of Fire Prevention Week, Oct. 6-12, more constructive than ever," urges Fire Chief James Stearns of this village.

Chief Stearns calls attention to the fact that Fire Prevention Week is educational in its aim, as well as designed to influence people to reduce fire hazards.

Talks will be given by firemen at the schools during this week; members of the fire department will inspect homes and business establishments on their fall tour of inspection, and townspeople will, as in the past, co-operate by checking over their electric wiring, heating systems and buildings.

Clear Basements, Attics.
Accumulations of trash in basements and attics are potential fire hazards, Stearns points out.

Spontaneous combustion may set fires in oily rags, piled up stacks of papers and so on, the chief points out.

Lake Villa Lions to Hold Harvest Party and Dance

"Attend this party and forget your aches and pains," invites the Lake Villa Lions' club, announcing its Harvest dance and party, to be held in Sherwood's park, Lake Villa, Sept. 28, commencing at 7:30 p. m.

Kay Night and his Blue Knights orchestra will furnish swing music, and there will also be old-time barn dance music.

Games, refreshments and various other features are planned. There will also be a number of prize awards.

Funds derived from the party will be used for charitable purposes and will also be applied in part to the club's already substantial fund to assure the children "both young and old" of the Lake Villa community a real Christmas tree and Christmas party.

Miss Mary Lou Sibley left yesterday for Chicago where she entered the nurse's training course at University hospital. Miss Winnie King also will take the nurse's training course at St. Luke's hospital starting October 1, and Miss Ruth Piersfort, taking a similar course, began her duties at St. Therese hospital in Waukegan three weeks ago.

NO THIRD TERM!

The Indispensable Man

"No man can save democracy who has lost faith in the people. Sooner or later—and I say the time is now—the people will lose faith in him," said Wendell Willkie in his address at Coffeyville, Kansas.

Here is a statement which should carry as much weight as anything that could be said the present campaign. President Roosevelt has adopted as a doctrine of his own, that of the "indispensable man." Out of more than 130,000,000 people living in free America, he has come to the conclusion that he is the only man who can

pilot us through the present world crisis.

There is little question that the fate of democracy is hanging in the balance in Europe at least. It is true also that democracy in America is, so to speak, at the crossroads. But the danger at home here is greater in the immediate future for us than any drive against us which can possibly come from the totalitarian powers of Europe. That danger is expanded by continuing business bailing, unemployment, and the mounting of taxes and national debt—all pointing toward economic national ruin and a change in our form of government.

The fact that Mr. Roosevelt has lost faith in the people is indicated by his belief that he is the indispensable man in this year of 1940. Mr. Mussolini and Mr. Hitler lost faith in the people. They held themselves to be the indispensable men of Italy and Germany. They did not believe that their people could work out their own problems, but that the indispensable man must do it for them. Although Soviet Russia was founded on the purely communistic theory that the workers of the land should rule it, Josef Stalin decided that he is the indispensable man. He lost the faith in the people to rule themselves.

In America, fortunately, the situation is somewhat different. We still preserve our traditional democracy. Our people because of their ingenuity and their great national wealth are still able to save themselves without a change in our form or theory of government. They will continue in the safe path and return to the ways of their fathers, if they refuse to adopt the indispensable man theory, which would indicate that the people are no longer able to look after their own affairs but must have a guardian over them. Breaking the third term tradition will be the first step toward the adoption of this new theory imported from Europe.

"Wedded for Gold," by Bertha N. Clay, was running as a serial in the Antioch News.

One of the school trustees of Chicago is soliciting the influence of woman's clubs to bring about the establishment of separate public schools for boys and girls, says Harper's Bazar. This is an incident of the wide-spread movement.

The separation of the sexes in school is sought, not as might at first be thought, because boys are rude and girls need to be protected. It is because little girls, holding all the promise of Susan B. Anthony's United States, inspire school teachers to be partial in their attention. The girls do the most reciting, they take all the prizes and the boy is so generally neglected that even the chance of being President seem slipping from his hold. Moreover, sex favoritism prevails in the matter of selection of teachers and the school trustee wants not only separate schools for boys, but men to teach them. The assertion of a virile masculine element in the sexless, attenuated theories of modern education would doubtless benefit boys, and by contrast might define something new, and at the same time good, in women.

Those killed in Galveston during the great storm number about 6,500. At the residence of Mr. and Mrs. James R. Jones, Tuesday morning, Sept. 25, occurred the marriage of their daughter, Olive R., to Mr. Jay R. Haycock of Antioch.

THE USE AND ABUSE OF WEALTH

LESSON TEXT—Proverbs 11:24-31; Luke 16:11-13.
GOLDEN TEXT—Lay up for yourselves treasures in heaven.—Matthew 6:20.

Money—its making and using—is a matter which constantly concerns all of us as long as we live in this world. It is the medium of exchange whereby the labors of one man may be exchanged for the labors of another, in the purchase of goods and services. It may be used to send a messenger to the ends of the earth with the good news of salvation or, on the other hand, it may be the ready instrument to destroy both body and soul of those who abuse it. Man may have money, and be a blessing, or money may have a man, and be a curse.

I. The Right Spirit in the Use of Money (Prov. 11:24-28).
What a man does with his money is only a reflection of what he is in his inmost life. The spirit which withholds unless there is a return to itself in pleasure or profit is a selfish and ungodly spirit. To attempt to present one's self before the world as a follower of Christ and to have that attitude toward what one possesses is to deny by one's acts the testimony of one's lips.

Not all "scattering" (v. 24) is commendable. It is possible to be careless and wasteful, and that neither honors God nor helps our fellow men. Then, too, a man may scatter liberally, as the farmer does when he sows seed, knowing that he will have a richer harvest for himself. That is only a different type of selfishness.

The man who knows "God, that giveth to all men liberally" (James 1:5), scatters not only his money, but his riches of mind and spirit in his life and service. He gives himself and what he has to God—and to man as he serves God—and rich is his reward. In sad contrast is the man who keeps his possessions, but finds that withal he has only barren leanness of soul and life.

II. The Good and Bad Use of Money (vv. 27-30).

The man who looks for good finds it, and the one who looks for trouble finds that, too. That is true in the use of money as well as elsewhere in life. One way to end up in certain disappointment is to put your trust in money, for, while it opens many doors, it cannot open the door to heaven, and, while it can buy most things, it cannot buy health and happiness. To seek good, seek the Lord and His righteousness, and you will "flourish as a branch." You may not have the riches of this earth, but you will prosper in those things which are of eternal value. You will be wise in the conduct of the affairs of your own house (v. 29) and life, because you are "wise of heart."

III. The Best Use of Money (vv. 30, 31).

One of America's leading business analysts and statisticians said some years ago that the best investment of funds was in the winning of souls to Jesus Christ. Had man expended the money which should have gone for that purpose, at the right time, we might have spared the spending of billions of dollars for war in these latter days. "He that is wise winneth souls" (v. 30 R. V.). "And they that be wise shall shine as the brightness of the firmament; and they that turn many to righteousness, as the stars for ever and ever" (Dan. 12:3).

The glory that awaits the believer in this life and in the life to come, as well as the judgment which inevitably must fall on the sinner (v. 31), should urge us on in the winning of souls. But even more than that, the love of God, and "the love of Christ" which "constraineth us" (II Cor. 5:14), should cause us to put ourselves and our money into His hands, to be used in the winning of souls. Could there be any better use of money?

IV. The Test of the Use of Money (Luke 16:11-13).

Ultimately each one of us must give an account to God of the manner in which we have lived. These verses and others indicate that one of the matters for which we must answer is the manner in which we have used or abused the money or other possessions with which God has blessed us.

We are stewards, and only as we demonstrate our faithfulness and wisdom in the use of the "unrighteous mammon" (v. 11); that is, the money of this world, can God entrust us neither here or in the world to come with His true riches.

Let us be very clear about this point today. It does make a vital difference to your spiritual life how you regard money. You cannot separate your life into compartments, with a spiritual Sunday religion and a do-as-you-please weekday, business or social life. The dollar you spend on Monday is of as much concern to God as the dollar you put in the offering on Sunday.

LAKE VILLA

Lake Villa Community Church Methodist—W. MacArthur, Pastor
Worship Service—11 A. M.
Sunday School—10 A. M.

On Sunday evening, Sept. 29, the pastor will illustrate his sermon with a chalk talk, and you will enjoy this unusual feature. The last Sunday evening of each month will feature an illustrated sermon.

As Sunday, Oct. 6, is Conference Sunday, the Rev. and Mrs. MacArthur will be at Freeport for the day and there will be no Sunday school or other service on that day.

The Ladies' Aid Society will hold its quarterly birthday party and pot luck dinner with Mrs. Martha Madsen at her home on Wednesday, Oct. 2, and the July, August and September birthdays will be observed. Visitors are very welcome. The annual election of officers will also be held and every member should make an effort to attend.

Will friends and members of the Aid society kindly save Camay soap wrappers, Ivory Flakes package tops and Crisco labels and leave same with Mrs. Hooper? The Aid will appreciate it.

President Gangman

Grover Cleveland, who later became President, hanged two men in 1872. He was elected sheriff of Erie county, New York, for the years 1871-1873 and during that period Jack Gaffney and Patrick Morrissey were sentenced to be hanged. Rather than detail a subordinate to perform the unpleasant task, Sheriff Cleveland did it himself.

Large Bequests
The University of Pennsylvania received almost \$1,500,000 in contributions and bequests during the year ended June 30. The university said that a substantial part of the money would be used to celebrate the 200th anniversary of its founding by Benjamin Franklin.

Automobile
As the 28,000,000th Ford automobile recently rolled off the assembly line, the Ford Motor company estimated that since 1903 it has paid \$4,230,000,000 to workers for 4,800,000,000 man-hours of labor, has spent some \$10,000,000,000 for materials and paid \$700,000,000 in taxes.

WHEN BETTER AUTOMOBILES ARE BUILT
BUICK WILL BUILD THEM

YOU'LL like the size of this trim new Buick SPECIAL for '41—its room, its softer ride, its Permi-firm steering, its fresh smart style and all that.

But what you'll go for is what happens under that broad bonnet—the thrill and the thrust you get from that lanky, big, 115-hp. Buick FIREBALL® Eight.

For in each flame-packed cylinder of that silk-smooth power plant a flaring ball of fire is set off with each spark-leap.

Packed to higher compression than ever before, fuel gives up more power and more mileage—power when you need it, economy throughout the whole driving range.

Indeed, so great is the power at your command that at 30 you use only one-eighth of the energy at your disposal.

All the rest is there waiting for pick-up, hill-climb and sudden getaway.

Even at 50 you use less than one-quarter of your available power, and at 75 still have nearly half "on call" for emergency use.

More than that, to this engine you can likewise add Compound Carburetion—and step up both power output and your mileage. At 30 you'll get nearly one and one-half more miles per gallon, at 50 almost two, and at 70 an extra mile and one-fifth.

But that's just one side of the story—the facts side. Only one thing will give you the stirring feel of Buick's thrill-packed behavior on the road.

That's a demonstration—and it's yours for the asking. When will you be in to ask for it?

Frances Beimer, Ernest Schaeffen Wed at Wilmot

A reception for 300 guests followed the wedding ceremony uniting Miss Frances Imogene Beimer, daughter of Mr. and Mrs. George Beimer, Salem, and Ernest Schaeffen, son of Mr. and Mrs. John Schaeffen of Antioch, Saturday afternoon at 2:30 o'clock in Wilmot.

The bride's gown of lace marquisette was made with a long train. Over it she wore a fingertip-length veil, and her bouquet was of white roses.

Mrs. William Schaeffen and Miss Emma Schaeffen, as matron of honor and bridesmaid, were gownned in pink and blue, respectively, and carried white roses, asters and gladioli. Little Miss Sandra Schaeffen was flower girl and Jimmy Vinge ring-bearer.

The bride attended Antioch High school and Salem Center school. The bridegroom is employed at Bassett's.

Out-of-town guests at the wedding included:

Mrs. C. R. Dimmingham, Valparaiso, Ind., Mr. and Mrs. Douglas Vinge, Chicago, the William Schaeffens, Mr. and Mrs. Lester Yeates, Genevieve Jernian, Frieda Schaeffen, Leivad Laseny and Mr. L. Harrison.

AID TO HOLD "SILVER TEA" WED, OCT. 2
Mrs. Dorothy Baker of Lima, O., will be the speaker at a "Silver tea" to be held by the Methodist Ladies' Aid society Wednesday, Oct. 2, at the home of Mrs. Hans Von Holwede.

Mrs. William Runyard is chairman of the circle in charge of the tea. Wednesday afternoon at 1 o'clock members of the Aid were entertained at a dessert-luncheon in the home of Mrs. Sam Rice.

Mrs. W. C. Perry afterward gave a review of the book, "World's End."

FRIENDSHIP CIRCLE HAS POT LUCK DINNER
A card party to be held some time in October, a trip to Barrington to go through the plant of the Jewel Tea company, and a meeting to be held Monday, Oct. 21, at the home of Mrs. H. B. Gaston, were events for which plans were made at a meeting of Friendship Circle Wednesday evening.

A pot luck supper was enjoyed previous to the meeting, which was held at the home of Mrs. William Kufak.

REBEKAHS HOLD PARTY TOMORROW
A light luncheon and prizes will feature the card party the Lakeside Rebekah lodge will hold tomorrow afternoon (Friday, Sept. 27) in the home of Mrs. C. E. Hennings. An admission price of 35 cents has been set for the affair which will be open to members and their friends.

In the calendar year 1933 the total income of all persons receiving \$5,000 and over was \$6,528,000,000. If all such income had been confiscated, it would have failed by one billion dollars to pay the Federal expenditures of 1933. It would not be sufficient by \$2,600,000,000 to pay the Federal expenditures of 1939.

Did Not Work
That New Deal reciprocal trade agreements did not attract buyers is shown by the purchase, by countries with which these agreements were made, of meat products to the value of 17,644,000 pounds in 1935, before the agreements were made, and only 15,175,000 pounds in 1939, when all agreements were in effect.

CHRISTIAN SCIENCE CHURCHES

"Substance" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, September 15.

The Golden Text was, "If we hope for that we see not, then do we with patience wait for it" (Romans 8: 25).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "For the love of money is the root of all evil; which while some coveted after, they have erred from the faith, and pierced themselves through with many sorrows. But thou, O man of God, flee these things; and follow after righteousness, godliness, faith, love, patience, meekness" (1 Timothy 6: 10, 11).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Take away wealth, fame, and social organizations, which wealth not one lot in the balance of God, and we get clearer views of Principle. Break up cliques, level wealth with honesty, let worth be judged according to wisdom, and we get better views of humanity. To ascertain our progress, we must learn where our affections are placed and whom we acknowledge and obey as God. If divine love is becoming nearer, dearer, and more real to us, matter is then submitting to spirit. The objects we pursue and the spirit we manifest reveal our standpoint, and show what we are winning" (p. 239).

The Treasure Chest

(Compiled by A. Channell)
"Prejudice"

Prejudice is a mist which, in our journey through the world, often dims the brightest, and obscures the best of all the good and glorious objects that meet us on our way.—Tales of Passion.

Prejudice may be considered as a continual false medium of viewing things.—B. P. Butler.

Ignorance is less remote from the truth than prejudice.—Dediot.

Prejudice is the reason of fools.—Voltaire.

Instead of casting away our old prejudices, we cherish them to a very considerable degree, and, more shame to ourselves, we cherish them because they are prejudiced; and the longer they have lasted the more we cherish them. We are afraid to put men to live and trade each on his own private stock of reason, because we suspect that this stock in each man is small, and that the individuals would do better to avail themselves of the general bank and capital of nations and of ages.—Burke.

Religious, racial, political, economic and patriotic prejudices destroy the edifice of humanity. As long as these prejudices prevail, the world of humanity will have no rest.—Abbas Effendi.

Civilization just a slow process of getting rid of our prejudices.

There is nothing respecting which a man may be so long unconscious, as the extent and strength of his prejudices.

The prejudiced and obstinate man does not so much hold opinions, as his opinions hold him.—Tyron Edwards.

Prejudice which sees what it pleases cannot see what is plain.—J. S. Mill.

A man's thoughts and actions are affected by his interests.

So that he will tend to observe only those facts which support his biased viewpoint.

Shall we ask of this child-man that he become scientific in relation to Truth.

Or shall we leave him to his comforting illusions?

—Patterns in Jade.

Man must keep his windows open to the world, And maintain wide communications with the Universe; For to be a truth-finder, one must seek truth everywhere.

—Patterns in Jade.

There was once a prejudice that no good thing ever came out of Nazareth.

We won't tell you their names unless you ask us, but she was a neat, trim woman with soft gray hair and a mischievous look in her eye and he was a well-known local gentleman with considerable Irish wit and considerably more Irish outspokenness. As she came into the Antioch News office and set her shopping bag down with something of a thump, he warned her, "Be careful, you're going to break something." "Oh, that's all right, John," was her gentle answer. "It's only a bottle of whiskey." And it was the first time we saw said gentleman speechless.

Announcing the big NEW FORD 1941 FORD

In some years, some cars take a big jump ahead. *The Ford does that for 1941.*

It has jumped ahead in size. It's the *biggest Ford* we've ever built, *inside and out.* It's *wider.* It has a *longer wheelbase.* Its seating room is *wider* by as much as 7 inches. It has *new wide doors* and *semi-concealed running boards.*

You'll notice also a new beauty, achieved by a skilful blending of mass with *longer flowing lines.* *Larger windshield and windows* give better vision all around.

One of its biggest advantages is the *new soft ride.*

New, slower-action springs give a slow, gentle, gliding movement. A *newly designed stabilizer* helps absorb road shocks, and maintains balance on sharp curves and in cross winds.

More rapid acceleration to match its familiar speed and power makes this new Ford an even livelier car to drive.

These are only a few of this new car's outstanding features. It represents all the rich experience gained in building more than 28 million motor cars.

Any Ford dealer can give you many good reasons for making this your 1941 car.

WEEKLY NEWS ANALYSIS

By Edward C. Wayne

Germany Continues Pounding at Britain As Autumn Storm, Fog Season Arrives; Italy Reports Deep Drives Into Egypt; Oct. 16 Set as Draft Registration Day

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)
(Released by Western Newspaper Union.)

THE WAR: Britain Wails

While self-propelled barges were poised at French channel ports, waiting to carry German soldiers on an invasion of England, Prime Minister Churchill called a secret session of parliament.

Tides were favorable for the attempt by sea, London was being bombed day and night almost without letup, and reports said Big Bertha guns were shelling the British capital from the French coast.

Buckingham palace, home of the king, was bombed three times in

LONDON, ENGLAND—That classic crack by former Premier Chamberlain that the Nazis had "missed the bus" (meaning they had failed in their conquest attempts) is recalled to mind by this one in a London street. It was wrecked by a German bomb in one of the raids on the British capital. No one was hurt, says the censor, as the driver, conductor and passengers had taken shelter in a nearby raid refuge.

five days. Craters appeared along the Strand, in Fleet and Bond streets, in Leicester and Berkeley Squares, houses in fashionable Piccadilly and the slums of Cheapside were demolished, the bank of England was hit by splinters, the house of parliament did not go untouched, subways and railroad yards were damaged. In 10 days, 2,000 were killed and 8,000 injured in London alone.

Berlin radios warned that London could choose between the fate of pulverized Warsaw or surrendered Paris. The British replied that the Germans' hope was to force king and government to leave the city, thus gaining a moral victory. They said there would be no evacuation of the capital. They warned citizens, however, that Hitler's attempt at invasion might come "within a few hours" and that only Hitler knew when the signal would be given.

In Nazi Territory

The Germans faced handicaps, however. While their flying was not stopped by heavy fogs, gales in the channel made shipping perilous. And British fighters were not forced out of the air. They played the fields of Nazi airmen at Schiphol and Ypenburg in The Netherlands, around Calais, Dunkerque, Abbeville and Antwerp. They dropped calling cards in congested Berlin, weeded out gun emplacements along the channel near Boulogne, sunk barges on the coast, wrecked oil tanks and rail sidings through German areas, hit the Bosch spark-plug factory at Stuttgart, docks at Hamburg and ammunition dumps in the Black Forest.

But throughout the British were fighting against superior odds.

Egypt

In the Near East the British were pressed by Italian armies which invaded Egypt and pushed on to vital oases. There was no declaration of war. Egypt, which had threatened to join the British if the Italians crossed the border, showed no inclination to resist at once.

The Italians captured Sidi Barrani, 60 miles from the Lybia border on the fourth day. Sidi Barrani is only 180 miles from Alexandria, one of the main British strongholds, and 350 miles from the Suez canal.

By that time the British had revealed the strategy of their campaign. With only 230,000 troops, 500 planes and 1,000 armored cars they were hopelessly outnumbered. Plan was to retreat to a shorter line, thus extending the Italian forces before engaging in a major battle.

REGISTRATION: Oct. 16 the Day

October 16 will see 10,500,000 young Americans between the ages of 21 and 30 march to polling places and register for the first peacetime draft in the nation's history. The date was set by President Roosevelt when he signed the measure over which congress debated more than three months.

After registration, local boards—it is intended to have about 6,500—will shuffle the cards and give each man a number. Then a series of numbers will be drawn in Washington by lot. When the numbers are drawn each man with a corresponding number in a local board's file will be put down for service in that sequence.

Questionnaires will be sent to each man in the order in which their numbers were drawn, asking about dependents, physical disabilities, etc. On the basis of this information each man will be classified as follows: Class 1, available for immediate services; class 2, service deferred because due to employment in necessary defense industry; class 3, service deferred because of dependents; class 4, service deferred by law—judges, legislators, etc.

Meanwhile, Washington will decide on a quota for each district, based on population and the number of men from the area already in

the army or navy. Enough men then will be taken from class 1 to fill out the quota. Each man will be given a physical examination. If he cannot meet the requirements he will be passed over and the next man taken.

When draftees arrive in camp, they will be given another examination, physical and mental. Those not measuring up to top notch will be placed in separate sections for physical care.

Base pay will be \$21 a month for the first four months and \$30 a month after that. Service will be for one year, but may be extended by the President in case of emergency.

First Call Nov. 15

The first cadre of 75,000 will be called to camps about November 15. Successive calls for about 100,000 men each will bring about 400,000 into training by January 1. On that date the army expects to have 1,000,000 men under arms, including regular troops and National Guardsmen.

On the same day that the draft measure was signed, 60,000 National Guardsmen in 26 states reported to their armories for active service which will extend for a year, and the President gave orders to call out an additional 25,700 on October 15.

Swinging full tilt into the defense program, Washington also:

1. Heard President Roosevelt ask congress for an appropriation of \$1,600,000,000 to defray expenses of the first year of training of draftees.

2. Saw President Roosevelt sign a \$5,350,000 supplementary defense appropriation.

3. Awarded 21 aviation manufacturers orders to prepare for construction of 14,000 planes, at the rate of 900 a month. This production rate will be doubled within a year.

In the Headlines

Bankrupt—Perry county, in eastern Kentucky, filed a petition in bankruptcy in the federal court. It is believed the first county in the nation to take such action.

Steel—Ingot production in August amounted to 8,033,037 tons. It was the third largest in industrial history.

Wheat—Grain experts in Chicago predicted the Canadian spring wheat surplus at 508,000,000 bushels, second largest on record.

Education—Fear that defense jobs and conscription would cut into college enrollments showed a normal figure. University of California was one of the few below last year, the drop being 700.

Living Costs—Government survey, aided by private commodity experts, indicates cost of food is not likely to rise much for the balance of this year. In communities swamped with defense contracts, rents will rise. Over-all costs may go up 2 to 5 per cent by spring.

POLITICS:

Democratic

President Roosevelt made the first official speech of the campaign when he appeared before the Teamsters' union convention in the D. A. R.'s Constitution hall in Washington. He told them the gains of collective bargaining, maximum hours and minimum wages, and social security must be maintained. He said his "one supreme determination" was to keep war away from these shores.

Republican

Wendell Willkie grew hoarse in a single day of receptions in Chicago, reported unquailed since Lindbergh rode through the Loop. The official opening of his 15-day tour designed for the winning of the West was in Coffeyville, Kan., where he once taught school. From there he went on to Oklahoma, Texas, and a four-day campaign in California, the greatest attention any Republican presidential candidate ever has given that state.

Willkie's speeches raised the issue of the dictatorship of a third term. He said Roosevelt was the godfather of the unhappy Munich conference, and declared if President Roosevelt should be re-elected "you will be serving under an American totalitarian government before the third term is over."

DEATH:

The Speaker

William B. Bankhead, third speaker of the house under the New Deal to die in office, was the victim of overwork. The speaker exerted himself in active days and tedious nights in the extended congressional ses-

PRESIDENT ROOSEVELT is pictured here leaving the church in Jasper, Alabama, after attending the funeral services for Speaker William B. Bankhead. An army aide attached to the White House is pictured with him.

When he agreed to speak at a Baltimore political rally his physician protested. But before he could speak a blood vessel ruptured in his abdomen. He died four days later. Mr. Bankhead, father of actress Tallulah Bankhead, was buried in his home town of Jasper, Ala. President Roosevelt attended the ceremonies.

Sam Rayburn, who entered congress in 1913 after being speaker of the Texas house of representatives at the age of 31, was named fourth speaker under President Roosevelt.

MISCELLANY:

1. Hundreds of families whose earners have been imported to Philadelphia for employment in the navy yard are living in automobile trailers just outside the gates. Conditions brought a protest from near by housewives who told the city council that lack of proper sanitation was a health menace. Similar conditions are reported in other defense industry towns, including Bremerton, Wash., Newport, R. I., and Mare Island, Calif.

2. One of the first acts of the new postmaster general, Frank C. Walker, was to authorize three new stamp issues, carrying out a national defense motif. First day sale is in Washington October 12. A one-cent stamp will depict the farmer and laborer, the two-cent the army and navy, and the three-cent security, education and conservation.

3. A campaign to turn over some of the army's "flying fortress" planes to England is expected in Washington. Reason given will be to test out the super-American air fighter under combat conditions.

Greatest Plagues

The two greatest plagues ever to afflict man are believed to have been the Black Death (bubonic plague) of the fourteenth century, which killed an estimated 25,000,000 human beings; and the 1918 influenza, which took 10,000,000 lives.

Soil Management Program

A crop of 80 bushels of corn per acre removes about 75 pounds of nitrogen from the soil. It takes out, also, about 21 pounds of phosphoric acid and about 41 pounds of potash. With the heavy yielding hybrid corn varieties growing in popularity among American farmers, a well-rounded program of soil management with the use of fertilizer is necessary if high production and soil fertility are to be maintained, a farm bulletin points out.

Pineal Gland

Imbedded in the rear part of the brain, the pineal gland is sometimes described as a human remnant of the "third eye" of prehistoric animals. Little is known about it, but it seems to affect sex.

Spectacle Glass

Because the 2,600-degree heat used to fuse spectacle glass would melt ordinary thermometers, the temperature of the glowing mass is measured by the light it gives off.

YOU'LL SAY IT'S

"FIRST BECAUSE IT'S FINEST!"

MEET the new Chevrolet for '41, and we are confident you'll say, "It's first because it's finest—Again Chevrolet's the leader!"
For this car is the result and the reward of almost ten solid years of Chevrolet leadership in motor car sales... leadership that has brought with it unequalled manufacturing economies and unequalled value-giving powers... leadership that now makes it possible for Chevrolet to offer you a motor car which surpasses all previous levels of luxury in the lowest price field.

This new Chevrolet for '41 is a much bigger car in all ways—with a longer wheelbase and greater over-all length—with longer, larger, wider Fisher Bodies—with exceptionally comfortable interiors giving "3-couple roominess," or ample space for six passengers, in the sedan models.

Your Chevrolet dealer cordially invites you and your family to visit his showroom... invite you to make a thoroughgoing test of the finest motor car Chevrolet has ever built... invites you to eye it, try it, buy it—today!

Again CHEVROLET'S the LEADER

EYE IT... TRY IT... BUY IT!

NAMES . . . in the news

Birthday—Gen. John J. Pershing, commander of the A. E. F., at 80 had no special message for the United States. He said, however, he believed England could hold out. "At least I hope so," he added.

Veteran—Lester F. Loree, 82, one of the last of the railroad "giants" of the era of Harriman and Hill, died in his Jersey estate. Until 1938 he was head of the Delaware and Hudson.

Taxes—Lester P. Barlow, inventor whose liquid oxygen-carbon bomb failed to kill any goats recently in an official test, won a patent claim of \$592,719 from the government for an invention used in the World War. His income taxes on the sum amount to \$412,817. Barlow said he would "rock the capital" before paying it. His new oxygen bomb, however, had far greater force than any explosive now used.

REPUBLICAN NOMINEE STAYS ON JOB

SENATOR CHARLES L. McNARY
Candidate for Vice President

Mrs. Willkie—Next First Lady

One day, twenty-three years ago, the librarian in Rushville, Indiana, was talking to her young assistant about a fousel-haired young lawyer. "Marry that young man," advised Miss Mary Sleeth, the librarian. "He's going places."

The girl in the case had already made up her mind to do that. Her name was Miss Edith Willk. The young lawyer was Wendell L. Willkie.

From the very start Miss Willk's young man went places vigorously. Even though a blizzard, subzero weather and snow-clogged roads delayed the groom and the wedding, Wendell Willkie got there just the same—frozen bridal bouquet and all. It was January 14, 1918. Shortly afterward Wendell Willkie, already in the Army, left for France.

"Wendell Willkie has never let me down and that's the best recommendation I can give him," she says simply.

After Wendell Willkie had received the Republican nomination, a delegate remarked: "you've got the best man in the field."

"I have not," Mrs. Willkie countered, pleasantly, but firmly. "I have the best man in the world."

What has the great honor accorded her husband meant to this delightful, diminutive (she's only five feet, two, and weighs only about 110 pounds) Indiana woman? Has it frightened her? Inspired her? Probably both.

If her husband wants and hopes to be President, it's pretty breathing, of course, but she is equal to the challenge. "I believe it's a woman's job to adjust herself to her husband's way of living and help him do what he wants," is her philosophy of marriage.

—International News Photo.
MRS. WENDELL WILLKIE

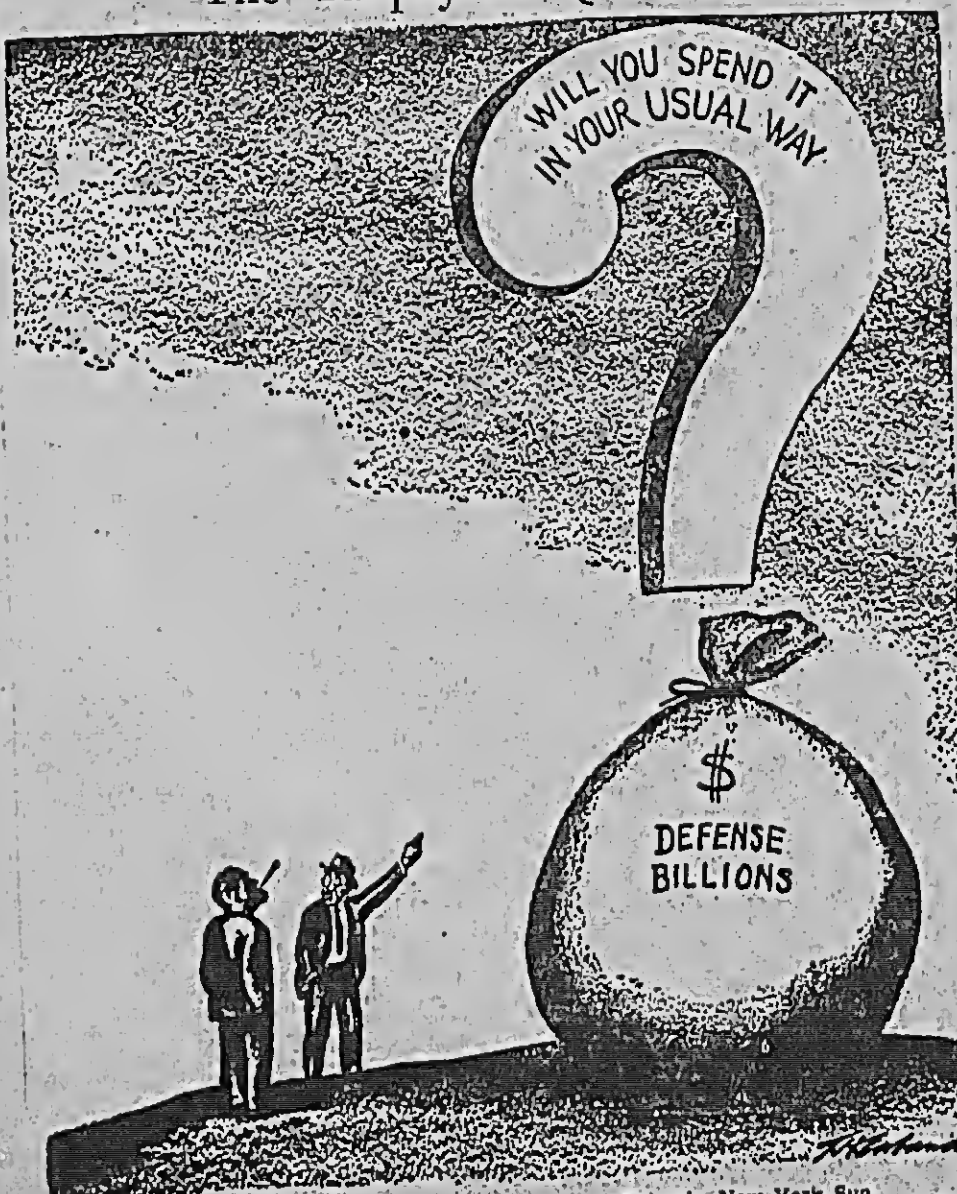

Mrs. Willkie's blue eyes are friendly, her manner warm and sincere. Her reserve has a practical basis—she is safeguarding her husband's interests. So she speaks carefully, choosing her words thoughtfully. She has never made a speech in her life and hopes she won't have to.

Her world revolves around her husband, her son, Philip, now 20 years old, and her home, a cheerful New York City apartment where the family has lived for eleven years. Bookcases fill every available space in the apartment.

Her husband's pet name for her is "Bilky."

Some call Wendell Willkie "Win"—a happy omen for another home address for Mrs. Wendell Willkie, at 1800 Pennsylvania Avenue, Washington, D. C.

WHAT'S YOUR STAKE IN U.S. SECURITY

BEHIND THE LIFE INSURANCE POLICIES OWNED BY 64,000,000 OF US IS A RESERVE OF \$29 BILLION — A BIG PART OF OUR STAKE IN GOVERNMENT, AGRICULTURE AND INDUSTRY.

WHAT ARE SOME OF THE WAYS IN WHICH THESE DOLLARS ARE PUT TO WORK?

POLICYOWNERS' MONEY IN UTILITY BONDS IS ENOUGH TO PROVIDE LIGHT AND POWER FOR NEARLY 700,000 HOMES.

MONEY IN U.S. BONDS IS ENOUGH TO BUILD 30 BOULDER DAMS!

Sour Milk

Thunderstorms do not sour milk. In the days before effective refrigeration, people frequently found their milk sour after a thunderstorm and so blamed the thunder. But in doing so, they failed to take notice of these facts: (1) thunderstorms are most likely to occur during warm periods of weather, usually following an extremely hot, sultry spell; (2) heat is an aid to bacteria in their multiplication; and (3) it is the action of bacteria multiplying in milk which produces the souring.

Speedy Foot

Ancestors of the present-day ostrich had more than two toes. But too many toes are a hindrance to swift running, so the useless members gradually disappeared. Now the ostrich has a foot that is designed for both speed and power.

THE NEW ECONOMICAL

Fall-Spring GAS house-heater

READ THIS TYPICAL LETTER FROM AN ENTHUSIASTIC BOOSTER

EDM. GRANT STREET • EVANSTON, ILLINOIS
AUGUST 3, 1940
DON ARMSTRONG • 224 GRANT STREET
Public Service Company
911 Church Street
Evanston, Illinois
Gentlemen:

It is a pleasure to report my experience with the automatic Fall-Spring Gas House Heater installed in my hot-air furnace March 21, 1939.

Our home is a six-room bungalow located at the above address. During the winter months when the heating demand was constant, furnace firing was simple and satisfactory, but in the spring and fall months, when the demand for heat was intermittent, firing the furnace presented a tough problem for a busy family — three or four warm days together, then a cold morning; stop to build a fire and he "ise to work! That was sure to happen at least once a week for about two months during the fall and during a similar period in the spring.

We knew that completely automatic heating would be a certain cure, but we thought it too expensive for us to use all winter. Automatic Fringe (Spring and Fall) gas heat with the conversion gas burner has proved to be a highly satisfactory solution to our problem.

One person alone can change the furnace from regular operation to gas or vice versa in a few minutes. We have had greater comfort in our home during the chilly days of fall and spring with the conversion gas heater than was ever possible before.

We all felt that it was worth extra cost to have the convenience and comfort of automatic heat during the fringe periods when the house had previously been either too cold or too hot. We expected extra cost.

The pleasant part of this report follows: Our total cost for house heating from September, 1939 to July, 1940 was \$75.75. That figure includes the total cost of fuel consumed, both gas and other fuel, during the period. In previous years, the cost of other fuel alone has been somewhere between \$80 and \$100.

We are enthusiastic about the gas conversion burner.

Yours truly,

Don Armstrong

"Pat" McMillen Keeps an Eye on**Doings Along Antioch's Main Street**

In Antioch there is the athletic world's pride and joy, wrestler "Gentleman Jim" McMillen—and there is also "McMillen!"

The latter is that large, curly-haired brown Chesapeake dog of benevolent and dignified mien whom you may have noticed at any time of the day or evening along Main street.

"McMillen's" real name is Pat, and he belongs to Wrestler Jim, but most folks think he's just a village fixture, like the fountain in the park, or the fire truck, or the village council.

"McMillen" never imposes, never intrudes, and never goes out of his way to make up to anybody. To the thousands of visitors to this resort community, as well as to the village folks, he manifests an aloof and toler-

ant courtesy, in keeping with the mature age (he is eight years old) evidenced by the few gray hairs beginning to show around his muzzle.

Sometimes he may be seen trotting soberly along the street, looking neither right nor left, with a small paper parcel carried carefully in his mouth. He has half a dozen regular stops for "handouts" up and down the main stem.

When the noon whistle sounds off, "McMillen" exhibits his only lack of dignity. He, too, sounds off, with a few mournful follow-up yelps. The siren, you see, is the same as that used for fire alarms. Master Jim is a volunteer fireman, and Liege Pat is waiting for a chance to bark at the fire engine.

For a time "McMillen" had a favor-

ite car roof or two along Main street, to which he would mount agilely despite his size, and on a fine autumn afternoon he might be seen stretched out in the sunshine, sleepily surveying the foolish doings of mere humans from his lofty perch.

But such foolishness is now mostly gone with the days of his youth. "McMillen" is a staid and sober dog now, who no doubt considers himself an able assistant to Marshal Bill Thiemann in maintaining order up and down Main street. With time out, of course, for an occasional nap in front of the Electrical Reproduction office around the corner on Lake street, while Master Jim labors over some engineering problem in the field of radio.

Pat probably comes by his aristocratic manners from his mother, Polly. Jim got her in 1931 from Talbot county on the east shore of Maryland, where these dogs originated. He was staying at the Lord Baltimore hotel in Baltimore then. Polly had the run of the hotel, because of her genteel ways, and was allowed to sleep in his room.

Jim finally managed to make arrangements through the vice-president of the Baltimore railroad to have her shipped to Antioch.

Polly proved to be rather a poor hunter, however, and he gave her to Les Crandall, who took her up north to his resort at Cable, Wis.

Les decided to raise some pups from Polly.

He gave two of them to McMillen, and then Jim really had a problem on his hands. "I was afraid to go and answer the phone," he laughs. For the pups stole milk bottles off people's porches; they dragged home rubbers and shoes—"I had the garage full of them," says Jim—"and even a piece of harness."

The climax came one day around "hog killin' time" when E. E. Mount of the Mount hatchery had half a hog out in his yard. E. E. caught the two culprits just as they were going out of the gate with that half-a-hog stretched out between them.

Both dogs proved good hunters. "I was hunting with them when they were six months old," Jim recalls. But Pat's brother met an untimely end.

"He was crazy about children," Jim explains. "One day he saw a baby carriage coming down the street. He thought it was my wife, Phyllis, and the kids. So he started across the street, without looking for autos or anything—and an automobile struck and killed him."

Pat is one of the best hunting dogs in the country, Jim maintains.

"You know, the Chesapeake is bred for stamina," he explains, "and that curly coat of his—you'll notice it's oily, too—keeps him from getting chilled in the water. One shake, when he comes out, and he's dry again."

"And retrieval—He'll retrieve an egg without breaking it. He'll hunt pheasants, ducks, rats, mice—and muskrats. I've seen him dive for muskrats. He used to bring them back alive, too—until one day a rat bit his tongue. Since then he generally hits them first."

"He comes to life and loses that sleepy look when something interests him—but you should see him sit up on a duck blind, fall asleep, and tinkle over!"

"He went out one day after a duck we had shot, brought it back, and then went out and got one of the 'call ducks' and brought that in, too."

"He's everybody's friend. The only man in town he doesn't like is Harjo Crubb. I guess Harjo's dog must have licked him once in a fight."

Gas Appliances Increase

Sales of gas appliances throughout the country during the first four months of 1940 were substantially in advance of sales made during the same 1939 period, according to reports received by the Association of Gas Appliance and Equipment Manufacturers, it was announced by C. W. Berghorn, managing director of the association. The increases in various types of gas appliances were as follows: Gas ranges, 18.2 per cent; gas-fired furnaces (house-heating equipments), 26.3 per cent, and water heaters, 13.7 per cent.
